VISUAL AIDS

OF

VETERINARY INTEREST

During recent years the use of films, filmstrips, slides, and other visual aids has rapidly expanded. We are indeed fortunate that so many excellent visual aids on subjects of interest to veterinary and related groups are available.

Visual aids strike both the intellect and the emotions and can impress knowledge on the mind quicker and keep it there longer than any other single medium of instruction. By means of visual aids the broad aspect of animal disease problems and in many cases their practical solution can be brought into the meeting room simply and economically and to the benefit of all.

There are more than 3,500 motion pictures produced by the United States Government available for public use in the United States. The United States Government does not produce films per se. It makes films for use in specific programs as a means of achieving the program purposes authorized by Congress. These films are, quite properly, considered as tools to be used in carrying out program functions.

State agencies and institutions have produced visual aids for the same general purposes. Commercial companies have found it advantageous to produce films and other media and to make such material available to veterinary groups.

We have received numerous requests for lists of visual aids of particular interest to regulatory and veterinary officials. These lists are desired as working references to enable individuals to review conveniently the list of visual aids available in regard to a particular disease or subject. Very often the one hundred or more film catalogs and other sources of information are not generally available.

We believe that it will be of advantage to regulatory officials and others to have at hand for convenient reference a current summary of applicable visual aids. It was with this thought in mind that we prepared a summary of "Visual Aids of Veterinary Interest." The aids were chosen with the broad interests of these groups in mind. They are arranged for the convenience of the reader by listing all visual aids pertaining to the particular disease under the heading of the disease concerned.

If you are interested in receiving any of the aids, other than those available through the United States Department of Agriculture, it is suggested that you write to the addresses on the opposite page for catalogs so that you will have the proper data as to rental cost, if any, ordering number, etc., and will have access to the other subject material available that could not be listed in this summary. There are also certain rules which must be followed in regard to films released for television showing. These rules are stated in the various catalogs. The letters in parenthesis at the end of each film, filmstrip, or slide set show from whom the material may be obtained. On the opposite page is a listing of these codes and addresses.

The way to a man's heart
May be through his stomach,
But the best route to his brain
Is through his eyes.

CODES AND ADDRESSES

957076

TV - Available for television showing.

DD - United States Department of Defense.

** - All slides, filmstrips, and slide sets bearing this notation may be obtained by writing to the ADE field activities station in your State or from the ADE Division Office in Washington, D. C.

AF - United States Air Force, Public Information Officer, (any of the following addresses):

Eastern Film Exchange H. Q.
1612 S. Cameron Street
Harrisburg, Pennsylvania

Midwestern Film Exchange H. Q.
San Antonio Air Force Station
San Antonio 8, Texas

Southern Film Exchange H. Q.
Orlando Air Force Base
Orlando, Florida

Western Film Exchange H.Q.
McClellan Air Force Base
McClellan, California

AFIP - Armed Forces Institute of Pathology, Walter Reed Army Medical Center, Washington, D. C.

AVMA - American Veterinary Medical Association, Film Library, 600 S. Michigan Avenue, Chicago 5, Illinois.

CDC - Communicable Disease Center, United States Public Health Service, Post Office Box 185, Chamblee, Georgia.

FCDA - Federal Civil Defense Administration, Battle Creek, Michigan.

IIAA - Institute of Inter-American Affairs, International Cooperation Administration, Washington 25, D. C.

ISC - Iowa State College, Visual Instruction Service, Ames, Iowa.

MI - Meat Inspection Division, ARS, USDA, Washington, D. C.

PU - Purdue University, Audio Visual Center, Lafayette, Indiana.

USA - United States Army, (any of the following addresses):

First Army
Governors Island
New York 4, New York

Fourth Army
Fort Sam Houston
Houston, Texas

Second Army
Fort George Mead
Fort Mead, Maryland

Third Army
Fort McPherson, Georgia

Fifth Army
1660 E. Hyde Park Blvd.
Chicago, Illinois

Sixth Army
Presidio of San Francisco
San Francisco, California

USDA - United States Department of Agriculture, Motion Picture Service, Washington 25, D. C.

USN - United States Navy, (any of the following addresses):

First Naval District
495 Summer Street
Boston 10, Massachusetts

Fourth Naval District
U. S. Naval Base
Philadelphia, Pennsylvania

Third Naval District
90 Church Street
New York 7, New York

Sixth Naval District
U. S. Naval Base
Charleston, South Carolina

Ninth Naval District
U. S. Naval Training Center
Great Lakes, Illinois

Eleventh Naval District
937 Harbor Drive
San Diego 30, California

USOE - United States Office of Education, Visual Education Service, Washington 25, D. C.

UW - University of Wisconsin, Bureau of Audio-Visual Instruction, Madison 6, Wisconsin.

VPI - Virginia Polytechnic Institute, Agricultural Extension Service, Blacksburg, Virginia.

WSC - Washington State College, Audio Visual Center, Pullman, Washington.

ANIMAL DISEASES

ANTHRAX

- Film: 1. "Anthrax in Ohio," 16 mm, sound, color, 25 min., produced by Ohio Department of Agriculture, FCDA, Ohio VMA, and AVMA, (USDA, AVMA).
- Filmstrips: 1. "Epizootiology of Anthrax," 67 frames, color, 9 min., 1952, (CDC).
2. "Transmission of Anthrax-Animal to Man," 70 frames, color, 12 min., 1954, (CDC).

ATROPHIC RHINITIS

- Film: 1. "Infectious Atrophic Rhinitis," 16 mm, silent, color, 10 min., 1950, produced by Kansas State College (WSC).

BLUETONGUE

- Film: 1. "Bluetongue, Catarrhal Fever of Sheep," 16 mm, sound, color, 9 min., 1954, produced by USDA and California Department of Agriculture, (USDA, AVMA).
- Slide: 1. "Bluetongue," Set of 25 color slides with commentaries, released 1956. (**)

BRUCELLOSIS

- Films: 1. "Battling Brucellosis," 16 mm, sound, color, 20 min., released 1946, produced by USDA, (USDA).
2. "Brucellosis in Swine," 16 mm, silent, color, 1946, produced by Purdue University, (PU).
3. "Brucellosis Ring Test," 16 mm, sound, color, 5 3/4 min., released 1956, produced by USDA, (USDA, AVMA).
4. "Triple Threat of Brucellosis," 16 mm, sound, color and b/w, 27 min., 1951, produced by USDA, TV, (USDA, AVMA).
- Filmstrips: 1. "Brucellosis of Cattle," (Bang's Disease), b/w, 1942, No. 632 (USDA).
2. "Epidemiology of Brucellosis," color, 86 frames, 15 min., 1952, (CDC).
- Slide: 1. "Brucellosis Blood and Ring Tests," Set of 17 color slides with commentaries. (**)

CATTLE GRUBS

- Filmstrip: 1. "Cattle Grubs or Heel Flies," b/w, 1942, No. 637, (USDA).

EQUINE INFECTIOUS ANEMIA

- Film: 1. "Equine Infectious Anemia," 16 mm, sound, b/w, with color sequence, 22 min., 1947, (USDA).

ENCEPHALOMYELITIS

- Films: 1. "An Introduction to Arthropod-Borne Encephalitis," 16 mm, sound, color, 12 min., 1957, produced by and available from CDC, (CDC).
2. "Arthropod-Borne Virus Encephalitis," 16 mm, sound, color, 1947, produced and available from USA, (USA).

HOG CHOLERA

- Film: 1. "Hog Cholera-African Swine Fever, A Comparison," 16 mm, sound, color, 23 min., 1956, produced by USDA and Armed Forces Institute of Pathology. (USDA, AVMA, AFIP).
- Slide: 1. "Hog Cholera, African Swine Fever," Set of 74 color slides with commentaries, (AFIP).

ANIMAL DISEASES (Continued)

INTERNAL PARASITES

- Films: 1. "Lungworm Disease of Cattle," 16 mm, silent, color, 10 min., produced by and available from Regional Animal Disease Laboratory, ARS, USDA, Auburn, Alabama
2. "Story of Phenothiazine," sound, color, 19 min., 1945, produced by E. I. Dupont de Nemours & Company, Inc., 13th and Orange Streets, Wilmington 98, Delaware.

MASTITIS

- Film: 1. "Mastitis Can Be Controlled," 16 mm, sound, b/w, 30 min., 1953, produced by University of Wisconsin, TV, (UW).
Slide: 1. "Mastitis," Set of 29 slides adapted to speaker's kit, (AVMA, MI).

MUCOSAL DISEASE

- Slides: 1. "Mucosal Disease," Set of 18 color slides with commentaries, furnished by Dr. William R. Pritchard, Purdue University. (**)
2. "Muzzle Disease," Set of 18 color slides with commentaries, furnished by Dr. William Boucher, University of Pennsylvania. (**)
3. "Rhinitis," Set of 18 color slides with commentaries, furnished by Dr. Rue Jensen, Colorado State University. (**)
4. "Rhinitis," Set of 10 color slides with commentaries, furnished by Lt. Col. Fred Maurer, AFIP. (**)

PARATUBERCULOSIS

- Film: 1. "John's Disease," 16 mm, silent, color, 12 min., produced by Animal Disease Research Labs, USDA, Auburn, Alabama, (AVMA).
Slide: 1. "Paratuberculosis in Sheep--Interdermal Test and Lesions," approximately 27 color slides with narration, available after January 1, 1957. (**)

RABIES

- Films: 1. "Laboratory Diagnosis of Rabies," 16 mm, b/w, sound, 8 min., 1950, produced by Communicable Disease Center, USPHS, Atlanta, Georgia, TV, (CDC, AVMA).
2. "Rabies Can Be Controlled," 16 mm, sound, color, 14 min., produced by Fordel Films, Inc., N. Y. 52, N. Y., available from Lederle Labs, Pearl River, N. Y.
3. "Rabies Control in the Community," 16 mm, sound, b/w, 11 min., 1956, (CDC).
4. "Striking Back Against Rabies," 16 mm, sound, b/w, 12 min., 1950, produced by USPHS, Atlanta, Georgia, TV, (CDC, AVMA).
Filmstrips: 1. "Laboratory Diagnosis of Rabies," 53 frames, 8 min., 1948, (CDC).
2. "The Fight Against Rabies," 89 frames, 14 min., 1947, (CDC).
Slide: 1. "Laboratory Diagnosis of Rabies," Set of 5 slides, color, 1948, (CDC).

SCABIES

- Films: 1. "Psoroptic Sheep and Cattle Scabies," 16 mm, sound, color, 12 min., 1956, produced by USDA, (USDA, **, AVMA).
2. "Sheep Scab," 16 mm, silent, color, 12 min., produced by Kansas State College, Manhattan, Kansas, (AVMA).
Slide: 1. "Scabies," Set of 45 color slides with commentaries, 1956, (**).

SCRAPIE

- Film: 1. "Scrapie, An Obscure Disease of Sheep," 16 mm, sound, color, 9 min., produced by USDA, 1954, in collaboration with California USDA and PCDA, (USDA, **, AVMA).
Slide: 1. "Histopathological Study of Brain Tissue from Affected Sheep," Set of two color slides showing vacuolation, (**).

ANIMAL DISEASES (Continued)

SWINE MANGE, ANEMIA, ERYSIPELAS, PNEUMONIA, ROUNDWORMS, ENTERITIS & CHOLERA

- Film: 1. "Common Diseases of Baby Pigs," 16 mm, sound, color, 25 min., produced by Moss Film Productions for Haver-Lockhart Laboratories and available from Haver-Lockhart Laboratories, Kansas City, Mo.

TICKS

- Films: 1. "The Threat of the Cattle Fever Tick," 16 mm, sound, color, 15 min., 1954, produced by USDA, TV, (USDA, AVMA).
2. "Tick Paralysis in Cattle and Buffalo," 16 mm, silent, color, 15 min., produced by Rocky Mountain Laboratory, USPHS, Hamilton, Montana, (AVMA).

- Filmstrips: 1. "Identification of U. S. Genera of Adult Ticks," 81 frames, 14 min., 1950, (CDC).
2. "The Genera of North American Ticks," 37 frames, color, 4 min., 1953, (CDC).

TUBERCULOSIS

- Films: 1. "Control of Bovine Tuberculosis in California," 16 mm, silent, color, 20 min., produced by California Department of Agriculture, Sacramento, California, (AVMA).
2. "Dynamics of the Tubercle: in Vivo Observation of Pathogenesis and Effects of Chemotherapy in the Clark Rabbit Ear Chamber," 16 mm, sound, color, 28 min., produced by Churchill Wexler Productions, Los Angeles and Charles Pfizer and Company, (AVMA).
3. "Tuberculosis," 16 mm, sound, color, 10 min., 1945, animated cartoons, also available with Portuguese and Spanish Narrations, produced by Office of Inter-American Affairs, TV, (USOE)
4. "Vicious Circle," 16 mm, sound, color, 21 min., 1954, produced by USDA, TV, (USDA, AVMA).
- Slides: 1. "Tuberculosis," Set of 60 color slides with narration. (**)
2. "Tuberculosis--Determining Origin of Infection," Set of 21 color slides with narration. (**)

VESICULAR DISEASES (MISCELLANEOUS)

- Film: 1. "Vesicular Diseases of Animals," 16 mm, sound, color, 11 min., revised 1951, (USDA).

VESICULAR EXANTHEMA

- Film: 1. "Vesicular Exanthema," 16 mm, sound, color, 16 min., 1954, produced by USDA, FCDA, TV, (USDA, AVMA).
- Slide: 1. "Vesicular Exanthema," Set of 10 slides showing VE lesions and maps showing progress of the eradication program. Accompanied with description of each slide. (**)

FOREIGN ANIMAL DISEASES

CONTAGIOUS BOVINE PLEUROPNEUMONIA

- Film: 1. "Contagious Bovine Pleuropneumonia," 16 mm, sound, color, 28 min., produced by Commonwealth Scientific and Industrial Research Organization, Australia, (USDA, AVMA).

EAST COAST FEVER

- Film: 1. "East Coast Fever," 16 mm, sound, color, 20 min., 1950, produced by Film Services, Union Education Department, and Vet. Res. Inst., Onderstepoort, Union of South Africa, (USDA, AVMA).

FOOT AND MOUTH DISEASE

- Films: 1. "Epidemic, Foot and Mouth Disease in Canada," 16 mm, sound, color, or b/w, 16 min., 1953, produced by National Film Board of Canada, (USDA, AVMA).
2. "Fighting Foot and Mouth Disease in Mexico," 16mm, sound, color, 20 min., released 1950, produced by Information Division, Joint Commission for the Eradication of Foot and Mouth Disease, (USDA, AVMA).
3. "Foot and Mouth Disease, in South Africa," 16 mm, sound, color, 15 min., 1950, produced by Film Services, Union Education Department, and Vet. Res. Inst., Onderstepoort, Union of South Africa, (USDA, AVMA).
4. "One Against Many," 16 mm, sound, b/w, 25 min., produced by Hal Roach Studios and Eastman Kodak Company, (AVMA).
5. "Outbreak, Foot and Mouth Disease," 16 mm, sound, color, 29 min., 1949, produced by USDA, (USDA, AVMA).

- Filmstrip: 1. "Eradication of Foot and Mouth Disease in the United States," b/w, 1948, No. 683, (USDA).

- Slide: 1. "Foot and Mouth Disease," Set of 20 color slides. No commentary. (**)

HEARTWATER

- Film: 1. "Heartwater in Farm Animals," 16 mm, sound, color, 15 min., 1950, produced by Film Services, Union Education Department, and Vet. Res. Inst., Onderstepoort, Union of South Africa, (USDA, AVMA).

NAGANA

- Film: 1. "Nagana," 16 mm, sound, color, 20 min., 1950, produced by Film Services, Union Education Department, and Vet. Res. Inst., Onderstepoort, Union of South Africa, (USDA, AVMA).

PREVENTING FOREIGN DISEASES OF ANIMALS AND PLANTS FROM ENTERING THE UNITED STATES

- Film: 1. "Hidden Menace," 16 mm, sound, color, 25 min., produced by USDA, available after December 1, 1957, (USDA).

RINDERPEST

- Film: 1. "Rinderpest, Its Recognition and Control," 16 mm, sound, color, 18 min., 1955, produced by USDA, FCDA, and Department of Defense, (USDA, AVMA).

- Slide: 1. "Rinderpest," Set of 66 color slides, (AFIP, MI).

TESCHEN DISEASE

- Film: 1. "Teschén Disease," 16 mm, sound, b/w, 12 min., released in 1953, produced by FCDA and USDA, (USDA, AVMA).

- Slide: 1. "Teschén Disease," (brain lesions) Set of 4 color slides with commentaries. (**)

POULTRY

A. DISEASES

ASPERGILLOSIS, BURSTITIS, ERYSIPELAS, IMPACTION OF CROP, INFECTIOUS SINUSITIS AND CREOSOTE POISONING

- Film: 1. "Turkey Diseases," 16 mm, silent, color, 20 min., produced by Dr. E. N. Moore, Cornell University, Ithaca, N. Y. (AVMA).

BLACKHEAD AND INFECTIOUS SINUSITIS

- Film: 1. "Tom Turkey - All American," 16 mm, sound, color, 12 min., produced by Fordel Film, Inc., N. Y. 52, N. Y., available from Lederle Labs, Pearl River, N. Y.

COCCIDIOSIS

- Film: 1. "Protecting Poultry Profits," sound, color, 22 min., produced by Merck & Company, (WSC).

FOWL CHOLERA, TYPHOID, CORYZA, POX, LARYNGOTRACHEITIS, LARGE ROUNDWORMS, COCCIDIOSIS, CECAL WORMS, AND PULLORUM

- Film: 1. "Modern Control of Poultry Diseases," sound, color, 30 min., 1952, produced by American Cyanamid Company, available from Clemson College, Clemson, South Carolina.

FOWL PLAGUE

- Slide: 1. "Fowl Plague," Set of 14 color slides with commentaries. (**)

NEWCASTLE

- Films: 1. "Newcastle Disease," 16 mm, silent, color 15 min., produced by P. P. Levine and Associates, Cornell University, Ithaca, N. Y. (AVMA).
2. "Newcastle Disease," sound, color, 11 min., 1951, produced by Lederle Laboratories, (VPI).
Slide: 1. "Newcastle Disease," Set of 21 color slides with commentaries. (**)

ORNITHOSIS OR PSITTACOSIS

- Slide: 1. "Ornithosis or Psittacosis," Set of 24 color slides with commentaries, (**)

PULLORUM

- Film: 1. "Pullorum Disease Control," 16 mm, silent, color, 10 min., produced by California Department of Agriculture, Sacramento, California, (AVMA).

RESPIRATORY DISEASES

- Slide: 1. "Respiratory Diseases of Poultry," 40 color slides, tape recording available upon request, (University of Minnesota).

TUBERCULOSIS

- Film: 1. "Vicious Circle," 16 mm, sound, color, 21 min., 1954, produced by USDA, TV, (USDA, AVMA).

B. INSPECTION

- Filmstrips: 1. "Poultry Hygiene: Plant Layout and Construction," 35 mm, sound, color, 72 frames, 10 min., 1956, (CDC).
2. "Poultry Hygiene: Operating Procedures," 35 mm, sound, color, 83 frames, 10 min., 1956, (CDC)
3. "Poultry Hygiene: Refrigeration," 35 mm, sound, color, 39 frames, 11 min., 1956, (CDC).
4. "Poultry Hygiene: Waste Disposal, Clean-up and Basic Sanitation," 35 mm, sound, color, 72 frames, 12 min., 1956, (CDC).

C. MISCELLANEOUS

- Film: 1. "Today's Chicks," 16 mm, sound, color, 20 min., 1950, produced by USDA, TV, (USDA, AVMA).

CIVIL DEFENSE

- Films:
1. "A New Look At The H-Bomb," 16 mm, sound, color or b/w, 10 min., 1955, produced by FCDA, TV, (FCDA).
 2. "Effects of Atomic Bomb Explosions," 16 mm, sound, b/w, 18 min., 1952, produced by DD, TV, (USA, AF).
 3. "Medical Aspects of Nuclear Radiation," 16 mm, sound, color, 20 min., 1952, produced by USA, TV, (USA, AF).
 4. "Nerve Gas Casualties and Their Treatment," color, 25 min., 1956, produced by FCDA, (USDA).
 5. "Public Health Problems in Mass Evacuation," 16 mm, sound, b/w, 13 min., 1957, (CDC).
 6. "Radioactive Contamination," 16 mm, sound, b/w, 18 min., 1952, produced by DD, TV, (USA,USN).
 7. "Radiological Survey," 16 mm, sound, b/w, 21 min., 1952, produced by DD, TV, (USN).
 8. "Rural Community Civil Defense," sound, b/w, 13 min., 1957, produced by FCDA, (FCDA).
 9. "Self Preservation in an Atomic Bomb Attack," 16 mm, sound, b/w, 10 min., 1951, produced by DD, TV, (USA, USN, AF).
 10. "The House in the Middle," 16 mm, sound, b/w, 6 min., 1953, produced by FCDA, TV, (FCDA).
 11. "The Medical Effects of the Atomic Bomb, Part I, Physics, Physical Destruction, and Casualty Effects," 16 mm, sound, color, 32 min., 1950, produced by USA, TV, (USA, AF).

- Filmstrips:
1. "Civil Defense Against Biological Warfare," produced by FCDA, (FCDA).
 2. "Civil Defense of Animals Against Biological Warfare," produced by FCDA, (FCDA).
 3. "Civil Defense of Man Against Biological Warfare," produced by FCDA, (FCDA).
 4. "Civil Defense of Plants and Crops Against Biological Warfare," produced by FCDA, (FCDA).

MEAT INSPECTION

- Films:
1. "Meats With Approval," 16 mm, also 35 mm, sound, b/w, 16 min., revised 1949, produced by USDA, TV, (USDA, AVMA, MI).
 2. "Your Meat Inspection Service," 16 mm, sound, color, 27 $\frac{1}{2}$ min., 1956, produced by USDA, TV, (USDA, AVMA, MI).
- Filmstrip:
1. "Federal Meat Inspection," b/w, 1945, (USDA).

MILITARY SERVICES

- Films:
1. "Animals In Rocket Flight," 16 mm, sound, b/w, 14 min., 1953, produced by the Air Force, TV, (AF).
 2. "U. S. Air Force Veterinary Services," 16 mm, sound, color, 35 min., 1953, produced by Knickerbocker Productions, Inc., New York, New York, TV, (AVMA, AF).
 3. "Veterinary Food Inspection Service, Part II, Theater of Operations," 16 mm, sound, b/w, 16 min., 1949, produced by USA, TV, (USA).

MISCELLANEOUS VISUAL AIDS

ADMINISTRATION OF MEDICINES TO SHEEP

- Film: 1. "Administration of Medicines to Sheep," 16 mm, silent, color, 23 min., produced by Dr. J. G. Whitlock, Cornell University, Ithaca, N. Y. (AVMA).

ARTIFICIAL INSEMINATION

- Film: 1. "Artificial Insemination," 16 mm, sound, color, produced by Iowa State College, 1954, (ISC).

CONTRIBUTION OF VETERINARY PROFESSION

- Film: 1. "Valiant Years," 16 mm, sound, b/w, 25 min., produced by Associated Serum Producers, Des Moines, Iowa, (AVMA).

DOG TRAINING

- Films: 1. "Second Sight," 16 mm, sound, b/w, 13 min., produced by RKO, Pathe, Inc., available from Gaines Dog Research Center, 250 Park Avenue, N. Y. 17, N. Y.
2. "The Way of a Field Champion," 16 mm, sound, color, 25 min., produced by Norman Wright, available from Gaines Dog Research Center, 250 Park Ave., N. Y. 17, N. Y.
3. "Training You To Train Your Dog," 16 mm, sound, color, 32 min., produced by United Specialists, available from Gaines Dog Research Center, 250 Park Ave., N. Y. 17, N. Y.
4. "Training You To Train Your Dog," (Advanced) 16 mm, sound, color, 27 min., produced by United Specialists, available from Gaines Dog Research Center, 250 Park Avenue, N. Y. 17, N. Y.

FOOD POISONING

- Films: 1. "An Outbreak of Salmonella Infection," 16 mm, sound, color, 14 min., 1954, produced by USPHS, TV, (CDC).
2. "An Outbreak of Staphylococcus Intoxication," 16 mm, sound, color, 12 min., 1954, produced by USPHS, TV, (CDC)

HANDLING LIVESTOCK IN TRANSIT

- Films: 1. "Handling Livestock for Market," 16 mm, sound, b/w, 21 min., 1945, produced by USOE, (USOE).
2. "It Pays To Take It Easy," 16 mm, sound, color, 14 min., produced by Allis Chalmers Manufacturing Company, West Allis, Wisconsin, (AVMA).

INSECTS

- Filmstrip: 1. "Introduction to the Insects," 67 frames, color, 10 min., 1953, (CDC).

MILK

- Films: 1. "Milk and Public Health," 16 mm, sound, b/w, 12 min., 1951, produced by USPHS, TV, (CDC).
2. "Sentinels of Milk," 16 mm, sound, color, 20 min., produced and available from Capitol Film Service, 224 Abbott Road, East Lansing, Michigan, (AVMA).

POISONOUS PLANTS

- Films: 1. "Acute Phalaris Staggers in Sheep," 16 mm, sound, b/w, 11 min., produced by Commonwealth Scientific and Industrial Research Organization, Australia, (USDA).
2. "Chronic Phalaris Staggers in Sheep," 16 mm, sound, b/w, 11 min., produced by Commonwealth Scientific and Industrial Research Organization, Australia, (USDA).

- Slide: 1. "Plants Poisonous to Livestock," Set of 43 color slides with commentaries, (**).

Q (QUERY) FEVER

- Filmstrip: 1. "Q (Query) Fever," 90 frames, color, 9 min., 1950, (CDC).

MISCELLANEOUS VISUAL AIDS (Continued)

RAT CONTROL

- Films:
1. "Rural Rat Control," 16 mm, sound, b/w, 16 min., 1951, produced by USPHS, TV, (CDC).
 2. "Sanitation Techniques in Rat Control," 16 mm, sound, b/w, 12 min., 1954, produced by USPHS, TV, (CDC).
 3. "The Rat Problem," 16 mm, sound, b/w, 16 min., 1954, (CDC).
 4. "Rat Ectoparasite Control," 16 mm, sound, b/w, 8 min., 1954, (CDC).

RESEARCH--PLUM ISLAND

- Films:
1. "Healthier Livestock Through Research," 16 mm, sound, b/w, 7 min., 1957, produced by USDA, TV, (USDA).
 2. "Plum Island Animal Disease Laboratory," 16 mm, sound, color, 23 ½ min., 1957, produced by USDA, available after December 1, 1957, TV, (USDA).

SMALL ANIMAL PRACTICE

- Films:
1. "Canine Clinical Cases," 16 mm, silent, color, 13 min., produced by Department of Small Animal Surgery and Medicine, API, Auburn, Alabama, (AVMA).
 2. "Infective Larvae of Ancylostoma Caninum," 16 mm, sound, b/w, 4 min., 1954, (CDC).
 3. "Local Anesthesia in the Canine," 16 mm, silent, color, 11 min., produced by Department of Small Animal Surgery and Medicine, API, Auburn, Alabama, (AVMA).
 4. "Some Uses for Gelfoam in Veterinary Surgery," 16 mm, silent, color, 35 min., produced by Department of Small Animal Surgery and Medicine, API, Auburn, Alabama, (AVMA).
 5. "Use of Stader Reduction Splint In Treating Fractures of Small Animals," 16 mm, silent, b/w, 10 min., produced by Otto Stader, Ardmore, Pennsylvania, (AVMA).

STORY OF AGRICULTURE

- Film:
1. "The Agriculture Story," 16 mm, sound, color, 13 ½ min., 1956, USDA, TV, (USDA).

TRICHINOSIS

- Filmstrips:
1. "A Flocculation Test for Trichinosis," 35 mm, sound, color, 85 frames, 11 min., 1956, (CDC).
 2. "Trichinosis--A Disease Easily Prevented," b/w, 1939, No. 573, (USDA).
 3. "Worms in Your Muscles," 52 frames, b/w, 10 min., 1948, (CDC).

TYPHOID

- Film:
